

Dallas, T E X A S
November 25, 1975

Dear Mr. Weisberg:

I found the Thermofax but it has faded. Jack is still proving elusive. You will note that I placed a skeleton of the application in the files at 3:40PM that day. So many reporters were swarming around I placed the original in the safe.

You will further note that the money order was filed at 11:17AM and in a matter of a few minutes Oswald was dead. Jack printed his signature neatly and you can be assured by me there was a supplemental message - it was of a sentimental nature. Sorry I flunked out on this and, I did not retain any copies of the press dispatches.

Am sending you a few other things that may be of casual interest to you. Powerful influence is being used to keep this case from being reopened and Ted Kennedy is no help - nor the Kennedy family for that matter.

Am enclosing a check for \$10.75; at your convenience please send me your POST MORTEM.

Speaking of classmates -- one of my closest friends - he was at A&M with me -- lives in Hanover, your state. I can't get him back home!

Kind regards,

A. I. English,
618 South Waverly Drive, 75208
